

PPL Distributor Instant Discount Program Customer FAQs

1 Is my business eligible for the PPL Distributor Instant Discount Program?
All PPL business customers are eligible for the Distributor Instant Discount Program.

2 How does the Distributor Instant Discount Program work?
When you purchase a qualified lighting product from a participating distributor, the cost of the item will be instantly reduced by the predetermined “rebate” value of that specific product. Purchase price, minus the rebate equals the discounted purchase price.

3 What lighting products are eligible for the Distributor Instant Discount Program?
LED lighting products that are included on our approved list are eligible. Visit ppllectric.com/businessrebates or consult a participating distributor to see what products they can offer.

4 Where do I find participating distributors?
A list of participating distributors is available on the program website at ppllectric.com/businessrebates.

5 Can I purchase products using the Distributor Instant Discount and then submit an application for a rebate?
No, if you choose to use the Distributor Instant Discount Program, then your project is not eligible for additional rebates using the regular rebate process.

6 What will I need to provide to the distributor to get the Distributor Instant Discount?
You will need to provide your PPL account number, the name and address of the business where the products will be installed, and some contact information.

7 How do I know if the Distributor Instant Discount Program is the right rebate program to use?
Review your options with your selected distributor or contact our program team at 1-866-432-5501 or PPLBusinessSavings@pplweb.com. A program representative will be happy to help you determine the right choice for you and your business.

8 Are new construction projects eligible for this program?
New construction is not eligible for the Distributor Instant Discount Program, however it is eligible for our Standard Business Energy Efficiency rebate program.

9 Can I purchase products for future needs using the Distributor Instant Discount Program?
No, we ask that you purchase only what you plan to install immediately. There should be no stocking of lighting products at your facility.
