

PPL Electric Business
Energy Efficiency Program

INSTANT DISCOUNTS FOR COMPRESSED AIR SYSTEMS

For most industrial facilities, compressed air is a necessary source of energy – but it can also be costly. In fact, did you know that most compressed air systems function at only 10%-15% efficiency? Choose energy-efficient compressed air equipment for your business and receive Instant Discounts and support from the PPL Electric Business Energy Efficiency Program to help your system operate at peak efficiency, with reduced energy waste.

Measure Name	Incentive per Unit
Air Tanks for Load/No Load Compressors <50 HP	\$1,000.00
Air Tanks for Load/No Load Compressors 50-150 HP	\$1,500.00
Air Tanks for Load/No Load Compressors >150 HP	\$2,000.00
Compressed Air VFD Compressor <40 HP	\$2,500.00

Benefits

Energy-efficient compressed air systems can improve your business operations.

Increased annual energy savings

Increased system reliability

Lower maintenance costs

Improved efficiency

How to start saving

Provide this information to a qualified distributor for Instant Discounts when you are ready to make a purchase:

- PPL Electric account number
- Installation business name
- Installation address
- Contact name and number

Get started
