

Your step-by-step guide to savings

We're here to guide you through every step of the application process and help you identify the incentive or program that fits your business best. Here's how it works:

- 1 Find a contractor.** Use our handy Find a Contractor tool on our website to connect with local experts and discuss eligible measures.
- 2 Set up an account and apply** for your rebate online at ppl electric.com/businessrebates.
- 3 Reserve your funds** with approval from our program team and, if required, get a pre-verification.
- 4 Install** your energy-efficient equipment and/or systems.
- 5 Submit** your final application and supporting documentation (itemized invoice, scope changes, etc.) as needed.
- 6 Prepare for final review.** Watch for email requests for additional documentation or a post-site verification, if required.
- 7 Receive your incentive check** in approximately 4–6 weeks after completion of final review.

Program availability and incentive levels are effective June 1, 2022 and are subject to change and/or termination without prior notice. Incentives and discounts offered are subject to customer meeting program eligibility. The costs of energy efficiency programs are recovered through customer rates in accordance with the Pennsylvania Act 129 of 2008. PPL Electric Utilities assumes no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor. Refer to Terms and Conditions on ppl electric.com/businessrebates.

Turn your energy savings into profits

Welcome to the PPL Business Energy Efficiency Program

Everything your business needs to save energy is now under one roof. Our Business Energy Efficiency Program aims to give you easy and affordable opportunities to lower your annual energy costs, connect with local contractors, save on high-efficiency upgrades and more.

Whether your business is small but mighty, large yet local or anywhere in between, we offer a variety of flexible prescriptive and custom incentive options to help you reach your energy efficiency goals.

Your path to savings

All business customers with facilities in our service territory are eligible to participate. We help you find the path that's right for you—from prescriptive and custom to Direct Discount, Direct Install and Instant Discount Programs—so you can start saving energy all year.

Prescriptive and custom incentives increase the ROI of installing energy-efficient equipment. Eligible upgrades include, but are not limited to:

- Combined heat and power (CHP)
- Compressed air
- Refrigeration
- Lighting
- Process improvement controls
- HVAC
- Variable frequency drives (VFDs)
- Solar

Business incentives structure*

Project category	INCENTIVE (per kWh)		INCENTIVE (per kW)
 Lighting	\$0.075	+	\$215
 Efficient Equipment	\$0.075	+	\$215
 Custom/Solar	\$0.075	+	\$250
 CHP	\$0		\$1,000
 Direct Discount Program	\$0.16	+	\$250

kW savings calculation is based on summer coincident peak demand savings, June through August (excluding weekends and holidays) from 2 p.m. to 6 p.m.

*Effective February 14, 2022, pre-approval is no longer required on lighting and efficient equipment projects through our standard downstream program. Custom projects and incentives offered through our Direct Discount Program will still require pre-approval prior to construction beginning. Pre-approval means that a project application must be submitted in good order and receive a pre-approval letter before construction begins. All projects must be submitted, with all documentation in good order, within 180 days of the project completion date. Incentives are capped at 50% of project cost, up to \$500,000. Incentives for Direct Discount Program are capped at 80%.

Our Direct Discount Program lets small businesses with a GS1 or GS3 rate code save \$0.16 per kWh and \$250 per kW annually on eligible refrigeration, compressed air, HVAC, domestic hot water and lighting projects—covering up to 80% of the project cost.

Eligible small businesses can get a no-cost energy assessment and free installation of LED bulbs and pre-rinse sprayers through our **Direct Install Program**.

All PPL Electric Utilities customers can get **instant discounts** on qualified lighting, HVAC, food service and agriculture products and equipment when you purchase from local participating distributors. Just provide your PPL Electric Utilities account number. No forms or applications required!
