

Efficiency at the head of its class

PPL Continuous Energy Improvement (CEI) Initiative

PPL Electric Utilities offers K-12 schools a variety of opportunities to reduce energy consumption.

Did you know that energy costs are the second-largest expense for many K-12 school districts?

One of the ways we're helping schools improve energy efficiency and reduce energy costs is through the PPL Continuous Energy Improvement (CEI) Initiative.

CEI Initiative

The CEI Initiative is an annual program that teaches school districts how to reduce energy consumption through behavioral and operational changes.

As a CEI Participant, you will receive

- Monthly Training
- Opportunity to interact with other educators, administrators and students
- An engineer-led building assessment
- Rebates for behavioral and capital project savings

All Schools can benefit from PPL energy efficiency programs

Earn rebates

Offset the cost of upgrades and reduce payback time with rebates based on energy (per kWh) saved.

Lower your energy costs

Investing in energy-efficient equipment and appliances start to pay off right away, with significant energy savings every month.

Redirect cashflow toward education

Take the money you save every month from having lower energy costs and invest it back into your school.

Improve work environment

Energy-efficient systems are shown to increase comfort and safety, which improves productivity among students and staff.

Reduce energy usage

Integrating energy efficiency practices can significantly reduce your monthly energy use, which lessens your school's impact on the environment.

Ready to start saving?

Contact us at **866-432-5501** or pplbusiness@clearesult.com.

For more information on our business rebates, visit ppllectric.com/businessrebates.

Participation is limited-- so don't wait!

The costs of energy efficiency programs are recovered through customer rates in accordance with Pennsylvania Act 129 of 2008. PPL Electric Utilities assumes no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.
